

OPERATION » TOLLS » CLASSIFICATION - PRICES

The rates charged at the toll stations of the Project, are specified in article 24 of the Concession Agreement, which describes the implementation time schedule and the calculation method of toll rates per vehicle category, as foreseen by the Project's financing plan, which has been agreed with the Greek State and the Lenders.

According to the aforementioned, vehicles are classified as follows:

- **Category 1:** Motorcycles
- **Category 2:** Vehicles with or without a trailer, up to 2.20 metres high
- **Category 3:** Vehicles of 2-3 axles, with or without a trailer, over 2.20 metres high
- **Category 4:** Vehicles with or without a trailer, of 4 or more axles, over 2.20 metres high

The toll rates are therefore defined as follows:
