Art.5 Short-term derogations

Derogations to the driving restrictions laid down in articles 1 and 2 above, so-called short-term prefectural derogations, may be granted for

Art.6 Long-term derogations

Derogations to the driving restrictions laid down in articles 1 and 2 above, so-called long-term prefectural derogations, may be granted for

Authorisations for the transport operations indicated in point 2 are issued by the Prefect of the department of departure.

Long-term authorisations are issued for a maximum of one year.

Art.7 Lifting of restrictions - border zones

In order to mitigate the consequences of the lack of harmonisation of traffic bans with those of neighbouring states, the Prefects of border departments have the possibility of granting derogations to the driving restrictions foreseen in articles 1 and 2 above.

Art.8 Lifting of restrictions - exceptional circumstances

In the case of exceptional circumstances, if the vehicles mentioned in article 1 have been immobilised during the 12 hours preceding the beginning of a period of restriction foreseen in articles 1, 2 or 3 above, the departmental Prefects may, in coordination with the Prefects of the neighbouring departments, authorise them to travel during all or part of the period of restriction within a specific zone.

Art.9 Conditions of use of derogations

For any vehicle granted a permanent derogation or a short or long-term individual prefectural derogation, the person in charge of the vehicle must be able to prove to the officers responsible for road traffic checks that the transport operation complies with the provisions of the derogation concerned.

The authorisation must be kept on board the vehicle. For it to be valid, it must be completed by the holder prior to the vehicle's departure, indicating the date of the transport operation and the vehicle's registration number.

An authorisation may be withdrawn by the issuing authority if the holder does not observe its terms of use or has provided erroneous information in order to obtain it.
