

Additional traffic ban for trucks above 20t on road nr. 86 – from March 1st 2020

Hungary

According to the information provided by the Ministry of Innovation and Technology **starting from the 1st of March 2020** the current general ban on night driving for **vehicles above 20t MPW (22-06) on road nr. 86 between Mosonmagyaróvár and Csorna will be replaced by a total ban on transit traffic.**

Freight traffic, after the introduction of the modifications, will be able to use a more secure route between Mosonmagyaróvár and Csorna, the M1 motorway and the M85 road. The measure is expected to have a positive effect on the roadside settlements, which will be less exposed to environmental emissions.
