

## Authorisations, passenger transport Denmark

### Cabotage restrictions in Denmark

**As of 1 November 2019**, cabotage operations with foreign registered coaches providing occasional and special regular services on the Danish territory will be limited to 7 consecutive days per calendar month.

This limitation does not concern:

- cabotage operations within international regular services
- local excursions in Denmark in the framework of international occasional services, on the condition that vehicles enter Denmark with a group of passengers and travel in Denmark with this same group of passengers.

Illegal cabotage (more than 7 consecutive days per calendar month) will be subject to fines amounting to 35,000 DKK (approx. 4,700 €).
