

## **Recovery of excise duties on diesel for Community road haulage companies**

### *Italy*

From next April 1, and precisely from the fuel consumption quarter January 1 - March 31, 2020, EU companies that request the recovery of excise duties on commercial diesel purchased in Italy, will have to forward the documentation to different Offices of the Customs on the national territory, depending on the Member State of origin. It will therefore no longer be possible to submit requests to the Customs Office of Rome I.

The competent offices for each EU country are listed in the table shown in the circular by the Customs Agency 34315RU of 28 January 2020 (attached - IT).
