

European Commission

Directorate-General for Mobility and Transport

DM28 04/064

B-1049 Brussels/Belgium

In the context of Coronavirus 19 infection, the EU Health Gateways has published a number of documents with recommendations in particular for the road transport sector.

An ad hoc working group from experts of the “[EU Healthy Gateways joint action](#)” consortium prepared advice for actions for preparedness at **ground crossings and the land transport sector**:

- [Preliminary advice for preparedness and response to cases of COVID-19 at ground crossings \(buses and bus stations\) in the European Union \(EU\)/European Economic Area \(EEA\) Member States \(MS\) \(VERSION 1 – 4/3/2020\)](#)

and general advice at points of entry for public health measures and screening:

- [Interim advice for preparedness and response to cases of COVID-19 at points of entry in the European Union/EEA Member States - **Public health measures at points of entry** \(VERSION 3 - 20/02/2020\)](#)
- [Interim advice for preparedness and response to cases of 2019-nCoV acute respiratory disease at points of entry in the European Union \(EU\)/EEA Member States \(MS\) - **Exit and entry screening at points of entry** \(VERSION 1 - 06/02/2020\)](#)

Eddy Liégeois

Head of Road Transport Unit
